

YankiAI – SB 243 Compliance Annex (California)

Effective Date: October 16, 2025

Responsible Entity: Nelat LLC (YankiAI)

Primary Jurisdiction: Mexico

Secondary Jurisdictions: United States (including California)

Legal Reference: California Senate Bill 243 (SB 243 – “AI Companion Chatbot Regulation Act”)

1. Scope and Purpose

This annex defines YankiAI’s compliance framework under California Senate Bill 243, governing AI companion chatbots. Its purpose is to ensure YankiAI acts lawfully with respect to user protection, transparency, and management of sensitive interactions, even when operated outside California.

2. YankiAI Classification

Following internal and legal analysis, YankiAI is not classified as a 'companion chatbot' under SB 243. Its core functionality centers on informational, religious, and logistical assistance—not emotional companionship. Therefore, YankiAI is not subject to full SB 243 reporting or auditing obligations but voluntarily adopts preventive measures.

3. Voluntary Compliance Principles

YankiAI implements the following voluntary safeguards inspired by SB 243: - Transparency: Users are notified that they are interacting with an AI system, not a human. - Risk Prevention: Automatic detection of self-harm or suicidal language with immediate response messages and local help resources. - Escalation Protocol: Detected risks are logged and routed to human review. - Preventive Audit: Annual internal AI ethics and safety audits will be conducted.

4. Internal Event Logging

YankiAI maintains an internal 'AI Crisis Protocol & Reporting Log' documenting detected high-risk interactions. Each entry includes timestamp, type of risk, system action, and follow-up. Logs remain confidential for 24 months.

5. Exemption from State Reporting

YankiAI does not engage in emotional or therapeutic relationships with users and is not required to file reports or audits with the State of California. This exemption remains valid unless future legal amendments expand the scope of SB 243.

6. Review and Update

This annex is reviewed annually or upon legal updates in California or operational changes introducing emotional AI capabilities.

7. Regulatory Contact
